INTERNATIONAL PRELIMINARY REPORT ON PATENTABILITY (Chapter II of the Patent Cooperation Treaty)

(PCT Article 36 and Rule 70)

Applicant's or agent's file reference P036333/WO/1	FOR FURTHER ACTION	See Form PCT/IPEA/416				
International application No.	International filing date (day/month/y	ear) Priority date (day/month/year)				
PCT/EP2003/011743	23 October 2003 (23.10.200	3) 11 December 2002 (11.12.2002)				
International Patent Classification (IPC) or national classification and IPC G08G 1/16						
Applicant DAIMLERCHRYSLER AG						
 This report is the international preliminary examination report, established by this International Preliminary Examining Authority under Article 35 and transmitted to the applicant according to Article 36. 						
	2. This REPORT consists of a total of 5 sheets, including this cover sheet.					
3. This report is also accompanied by A						
a. (sent to the applicant and	to the International Bureau) a total of	sheets, as follows:				
sheets of the description, claims and/or drawings which have been amended and are the basis of this report and/or sheets containing rectifications authorized by this Authority (see Rule 70.16 and Section 607 of the Administrative Instructions).						
sheets which supersede earlier sheets, but which this Authority considers contain an amendment that goes beyond the disclosure in the international application as filed, as indicated in item 4 of Box No. I and the						
Supplemental Box. b. (sent to the International Bureau only) a total of (indicate type and number of electronic carrier(s)) , containing a sequence listing and/or tables related thereto, in computer readable form only, as indicated in the Supplemental Box Relating to Sequence Listing (see Section 802 of the Administrative Instructions).						
4. This report contains indications relat	ing to the following items:					
Box No. I Basis of the re	port					
Box No. II Priority						
Box No. III Non-establishr	nent of opinion with regard to novelty,	inventive step and industrial applicability				
Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability; citations and explanations supporting such statement						
Box No. VI Certain documents cited						
Box No. VII Certain defects in the international application						
Box No. VIII Certain observations on the international application						
Date of submission of the demand	Date of compl	etion of this report				
27 April 2004 (27.04.2	004)	21 December 2004 (21.12.2004)				
Name and mailing address of the IPEA/EP	Authorized of	Authorized officer				
Facsimile No.	Telephone No	Telephone No.

		Claims		NO		
	Inventive step (IS)	Claims	1-9	YES		
		Claims		NO		

2. Citations and explanations

Industrial applicability (IA)

1. Reference is made to the following documents:

Claims

Claims

- D1: US-A-6 084 508 (VAN MEEL FRANCISCUS et al.), 4 July 2000 (2000-07-04)
- D2: US-B1-6 223 125 (HALL BRETT O), 24 April 2001 (2001-04-24)
- D3: US-B1-6 191 704 (KAYANO MITSUO et al.), 20 February 2001 (2001-02-20)
- D4: EP-A-0 464 821 (FIAT AUTO SPA), 8 January 1992 (1992-01-08)

2. Claim 1

Document D1, which is considered to be the prior art closest to the subject matter of claim 1, discloses (the references in parentheses are to D1) a "safety device for motor vehicles". The subject matter of claim 1 differs in that the following technical features (a) and (b) are missing:

- (a) "the monitoring equipment initiates <u>an output</u> signal to prevent the vehicle from driving into the danger zone"
- (b) "<u>if</u> an obstacle preventing <u>full traversal of</u> the danger zone is detected"

The subject matter of claim 1 is therefore novel (PCT Article 33(2)).

The problem addressed by the present invention can thus be seen as that of ensuring that:

"a danger zone is not blocked by a vehicle"

The solution proposed in claim 1 of the present application involves an inventive step (PCT Article 33(3)) for the following reasons:

In D1 an emergency braking operation is carried out to avoid a collision, which means that it is still possible to block the danger zone. For example, the vehicle might block the danger zone either completely or partially. The solution according to claim 1 of the present application is neither disclosed in nor suggested by documents D2, D3 and D4, either individually or in combination with each other.

The subject matter of claim 1 is therefore novel (PCT Article 33(2)) and inventive (PCT Article 33(3)).

3. Claims 2 to 17

Claims 2 to 17 are dependent on claim 1 and therefore also meet the PCT requirements in respect of novelty (PCT Article 33(2)) and inventive step (PCT Article 33(3)).
